Work Samples: <https://knowledgebase.fieldroutes.com/>

PROFESSIONAL SUMMARY

Technical Writer with 6+ years of experience building scalable documentation systems for SaaS platforms. Expertise in content architecture, editorial governance, and cross-functional collaboration across product, engineering, marketing, and operations. Proven ability to transform complex product functionality into clear, user-centered documentation that drives adoption, reduces support friction, and improves AI search performance. Recognized for elevating content quality through structured processes, style systems, and data-informed iteration.

EXPERIENCE

Technical Writer | Journey Leasing | July 2026 – June 2026

Lead content strategy and technical documentation for an all-in-one SaaS platform serving senior living leasing.

- Built and setup how-to guides, release guides, and troubleshooting articles
- Trained Journey's onboarding team how to create guides in their knowledgebase
- Helped prepare Journey Leasing for their launch in late Summer 2026

Technical Writer | ServiceTitan (Green Platform) | July 2020 – June 2026

Lead content strategy and technical documentation for an all-in-one SaaS platform serving trade businesses nationwide.

- Built and institutionalized the FieldRoutes Style Guide, establishing standards for voice, terminology, and structured documentation across 800+ web and mobile knowledge base articles.
- Designed scalable content models and tagging systems to support search optimization and AI-driven knowledge retrieval.
- Partner with Product Marketing, Engineering, Support, and Operations to translate feature releases into structured, high-impact release communications.
- Supported development of the FieldRoutes API documentation section, helping structure endpoint reference content, developer-facing guidance, and knowledge base navigation for API users
- Re-architected release documentation into a consolidated format, improving user engagement and reducing support escalations.
- Served as primary editorial consultant for FieldRoutes Academy, defining content frameworks for client training and certification program
- Spearheaded a knowledge base AI initiative that increased successful query resolution rates by 30% through structured rewriting, metadata refinement, and taxonomy improvements.
- Earned two promotions for process development, editorial governance, and measurable content impact, including the 2025 Be a Dream Team Member award in a team of 32 Content employees

Technical Editor | UNT Research and Innovation Office | Feb 2019 – Sept 2019

Supported faculty and research teams in securing competitive external funding.

- Edited 30+ complex scientific and aviation research proposals under high-stakes deadlines.
- Collaborated directly with researchers to distill dense technical material into persuasive, audience-focused narratives.
- Produced branded collateral and institutional materials aligned with organizational messaging standards.

SKILLS

Authoring Tools: Madcap Flare, Confluence, Jira, HTML & CSS, Markdown, Document 360, Google Docs

Process & Collaboration: Content modeling, editorial governance, taxonomy design, release communications, stakeholder management, API documentation
